DC circuit simulator for learning

Installation Manual

This manual is translated from Japanese using machine translation.

Installation Instructions

It can be installed by following the steps ①~④ below.

① Extract the dccs_*.** .zip.

② Upload the dccs folder that can be unzipped to any folder on your http(s) server by FTP etc. (dccs folder name can be changed) while keeping the structure as it is.)

③ When using the file upload function, change the permissions of the following 16 files directly under the "dccs/cgi" folder and the "dccs/cgi" folder to 705 or 755.
php_check.php
php_list.php
php_delete.php
php_upload.php
aspx_check.aspx
aspx_list.aspx
aspx_ delete.aspx
aspx_upload.aspx
perl_check.cgi
perl_list.cgi
perl_delete.cgi
perl_upload.cgi
python_check.cgi
python_list.cgi
python_delete.cgi
python_upload.cgi

④ Add the following description to web.config if an error occurs when downloading data files on a Windows server.
```
<system.webServer>
    <staticContent>
        <mimeMap fileExtension=".dat" mimeType="text/plain" />
    </staticContent>
</system.webServer>
```
